

The Vote of Shadows

At the Fire Circle, five contestants stepped forward to cast their votes. Each named another player, gave a reason, and placed their torch in order. No one was allowed to vote for themselves. Can you trace the whispers and motives to uncover who each contestant targeted, why, and when?

- The voter who accused someone of being “Untrustworthy” stepped up immediately after Chad.
- The final torch was placed by the contestant who cited “Weak in Challenges,” and they voted for the same person as the “Untrustworthy” voter.
- Grant lit the first torch and did not state “Silent Observer” as his reason to vote.
- The eliminated contestant received three consecutive votes; the middle of that block said “Social Threat.”
- The contestant with their torch between Grant and Chad was the shared target of the last voter and the “Untrustworthy” voter.
- Maya stood immediately before Chad; those two voted for the same person as Grant.
- Logan’s torch was not last, and Grant’s vote was not for Tessa.
